UCT LIFE INSURANCE CLAIMS ASSESSORS SHORT COURSE

WHAT IS THE COURSE ABOUT AND WHO IS IT FOR?

This course covers every aspect that relates to a career as a claims assessor within the life insurance industry. It is an officially endorsed, non-credit bearing UCT short course addressing a critical and scarce skill in the insurance industry. The course was developed in partnership with a group of leading product developers, senior claim assessors, senior medical officers and other industry leaders.

It is designed to provide all new and existing claims assessors with both a broad overview of the insurance industry as well as a practical understanding of claims assessment. Particular attention is paid to human anatomy, physiology and pathology, as well as other non-medical risk factors and how these relate to claims assessment.

WHEN AND WHERE DOES IT TAKE PLACE?
