INVESTMENT MANAGEMENT BUSINESS OVERVIEW BLITZCAMP

WHAT IS THE COURSE ABOUT?

The Blitzcamp is a one-day introduction to the investment management industry providing a broad overview of how an investment management business is structured and the workflow through the firm. It builds on the foundational learning from the Financial Services Industry Overview Blitzcamp showing candidates how investment research, portfolio management, dealing, administration, governance and technology fit together within an investment management firm. It also considers how the firm interacts with other industry players such as stockbrokers, the stock exchanges, STRATE and outsourced service providers.

This course provides an excellent foundational introduction for all people new to working in the investment management environment. It also offers value for those working in related areas such as compliance, IT, stockbroking, auditing or within the financial regulator.
